The InvestEU programme brings together various financial instruments currently available to support investment in the EU. Building on the success of the European fund for strategic investments, it aims at mobilising public and private investment in the EU through an EU budget guarantee of €26.2 billion that will back investment projects of financial partners, such as the European Investment Bank Group (EIB), national promotional banks and international financial institutions.

Thanks to a multiplier effect, InvestEU is expected to mobilise more than €370 billion of additional investment over the next seven years, contributing to the economic recovery and the EU's medium- and long-term policy priorities, including the green and digital transitions.

Member states will be able to use InvestEU to implement part of their recovery and resilience plans under the Recovery and Resilience Facility. In addition, they will also have the possibility to channel some of their structural funds to InvestEU to mobilise additional investment.

Over the past decades, many initiatives and investments have been undertaken in educational technology and digital skills development. Despite progress and excellent examples of innovation, these initiatives were often short-lived, or limited in scale and had marginal impact at system levels. This may, in part, be because the potential of digitising education was not widely visible and understood.

The Covid-19 crisis put us for the first time in a situation where there was little choice but use digital technologies to provide education and training. We have learned a lot, and many teachers, students and parents faced a steep learning curve. At the same time, this pandemic also exposed the shortcomings that need to be tackled in order to have successfully integrate of digital technologies in education and training systems.

Efforts to curb the outbreak of COVID-19 led to the closure of education and training buildings, campuses and other sites and a forced shift to emergency modes of digital education. These emergency modes have included a wide uptake of online and distance learning

The European Green Deal provides a roadmap with actions to boost the efficient use of resources by moving to a clean, circular economy and stop climate change, revert biodiversity loss and cut pollution. It outlines investments needed and financing tools available, and explains how to ensure a just and inclusive transition.

The European Green Deal covers all sectors of the economy, notably transport, energy, agriculture, buildings, and industries such as steel, cement, ICT, textiles and chemicals.

To set into legislation the political ambition of being the world's first climate neutral continent by 2050, the Commission will present within 100 days the first 'European Climate Law'. To reach our climate and environmental ambition, the Commission will also present the Biodiversity Strategy for 2030, the new Industrial Strategy and Circular Economy Action Plan, the Farm to Fork Strategy for sustainable food and proposals for pollution-free Europe. Work will immediately start for upping Europe's 2030 emissions targets, setting a realistic path to the 2050 goal.
