

AVVISO PUBBLICO

per titoli e colloquio

per il conferimento di un incarico di lavoro autonomo (libero professionale)

ex art. 7, comma 6, decreto legislativo 30 marzo 2001, n. 165 e s.m.i.

per le attività di **Project Assistant** nell'ambito del Progetto Europeo

“Joint Action on increasing the capacity of National focal point (NFP) – NFP4 Health”

in staff al Programma Mattone Internazionale Salute – triennio 2021-2024

Domanda 1:

1. Quali sono gli elementi da tenere in considerazione per la definizione di un piano di comunicazione nell'ambito di un progetto Europeo e nello specifico di una Joint Action?
2. Può indicarci i principali siti istituzionali dove reperire informazioni utili nell'ambito del tema salute pubblica a livello nazionale/internazionale?
3. Conosce alcuni strumenti “on-line” gratuiti utili per fare sondaggi, organizzare meeting, condividere calendari?
4. Legga il testo in inglese e traduca in italiano

ENSA was established by the Veneto Region in 1999. Since then the network has developed and supported solid partnerships between a wide range of European Regions and has carried out seminars, conferences, study visit programmes and exchanges of operators.

The co-operation between partners has brought about the opportunity to carry out several projects financed by the European Commission. ENSA represents an excellent opportunity for local and Regional Authorities to participate actively in European policy making and programmes.

Collaborating with ENSA is a way to increase the dialogue with the European institutions and to become part of an international platform to implement shared projects.

Domanda 2:

1. Cosa si intende con il termine “call for joint Action”? E qual è la principale differenza con il termine “call for project”?
2. Conosce le principali istituzioni Europee? Ne può elencare almeno 2 e darne una descrizione (mission, ruolo, responsabilità)?
3. Può indicarci quali sono le voci principali/essenziali da inserire nel menù del sito web di un progetto europeo?
4. Legga il testo in inglese e traduca in italiano

The network organises its work in five subject areas of intervention. Each has its own “thematic network”: elderly, youth, child issues, disability and social inclusion. The thematic networks work in an independent way according to the wishes and needs of members and in order to carry out activities in line with EU policies.

ENSA has no legal status but is underpinned by a democratic and flexible Heads of Agreements document which outlines the objectives of the network and the members competencies.

Domanda 3:

1. Quali sono gli strumenti pratici/tecnici attraverso cui si può realizzare la disseminazione di un progetto Europeo?

2. Cosa si intende con il termine “European Added Value” nell’ambito dei progetti Europei
3. Quali attività sono previste nell’organizzazione di un evento finale di progetto?
4. Legga il testo in inglese e traduca in italiano

With the Innovation Union strategy the European Commission aims to enhance European competitiveness and tackle societal challenges through research and innovation. One way in which this is to be achieved is with Innovation Partnerships. Their unique strength is that they will address weaknesses in the European research and innovation system, which considerably complicate the discovery or exploitation of knowledge and, in many cases, ultimately prevent the entry of innovations into the market place.

The Partnership aims to achieve this by bringing together key stakeholders (end users, public authorities, industry); all actors in the innovation cycle, from research to adoption (adaptation), along with those engaged in standardisation and regulation.

Domanda 4:

1. Cosa si intende con il termine sinergie e quale relazione con il termine mix-fund?
2. Quali sono i principali social network utilizzati nelle attività di disseminazione?
3. Quali applicazioni informatiche usa quotidianamente? Ne descriva utilizzo e funzioni.
4. Legga il testo in inglese e traduca in italiano

The World Health Organization (WHO) is a specialized agency of the United Nations that is concerned with international public health. It was established on 7 April 1948, headquartered in Geneva, Switzerland. The WHO is a member of the United Nations Development Group. Its predecessor, the Health Organization, was an agency of the League of Nations.

The constitution of the World Health Organization had been signed by 61 countries on 22 July 1946, with the first meeting of the World Health Assembly finishing on 24 July 1948. Since its creation, it has played a leading role in the eradication of smallpox. Its current priorities include communicable diseases, in particular HIV/AIDS, Ebola, malaria and tuberculosis; the mitigation of the effects of non-communicable diseases; sexual and reproductive health, development, and aging; nutrition, food security and healthy eating; occupational health; substance abuse; and driving the development of reporting, publications, and networking.

Domanda 5:

1. Come approccia il Programma EU4Health in tema delle “sinergie”?
2. Quali sono i processi di informazione/comunicazione nella promozione di un evento (workshop, infoday, convegno) organizzato attraverso l’utilizzo del web?
3. Qual è la connessione tra i Programmi EU4Health e FSE+?
